KUZNETSOV VLADLEN

QA Lead | QA Automation | QA Engineer

Vietnam | kuznetcov.vladlen@gmail.com | LinkedIn: vladlen-kuznetcov | GitHub: qa-vlad

---

PROFESSIONAL SUMMARY

QA Lead with **4+ years of experience**, successfully building processes and ensuring high product quality. Identified and localized **over 3000 defects**. Launched test automation from scratch, develop QA tools, and mentor the QA team.

KEY ACHIEVEMENTS

▸ Successfully launched and developing a test automation project from scratch.

▸ Increased QA process efficiency by developing **custom tools** for log conversion and analysis.

▸ Made a key contribution to maintaining a high product rating (**4.6+/5**) in app stores.

▸ Built an effective system for hiring and developing QA specialists within the team.

WORK EXPERIENCE

QA Lead
May 2024 — Present

Gammister | UAE (Remote)

- Initiated and leading a test automation project (Python, AltTester, Pytest, Allure) using OOP principles.
- Identified **2000+ defects**, including 200+ critical and 400+ high-priority ones.
- Developed a log converter and analyzer to simplify testing.
- Implemented a QA specialist hiring system; conduct interviews and mentor QA staff.

QA Engineer
Aug 2022 — May 2024

Gammister | UAE (Remote)

- Sole QA in the team: full manual testing cycle, laying the groundwork for automation (Python, AirTest).
- Ensured a stable product rating of 4.6+ in the App Store/Google Play.
- Initiated the implementation of 15+ in-game tools that accelerated testing.
- Implemented bug report and test documentation standards; optimized Jira processes.

QA Engineer
Oct 2021 — Aug 2022

Cats Who Play | Moscow

- Tested a commercially successful game based on a world-renowned franchise (sole QA on the project).
- Identified and localized **850+ unique defects** in 11 months.
- Developed level test automation scripts on the company's internal engine.
- Created English AI-powered voiceovers for dialogues for investor presentations.
